ABOUT CITY OF FLORENCE GAS DEPARTMENT

The City of Florence Natural Gas Department began operations in May of 1950. At this time, all of the natural gas was transported across O'Neal Bridge from a tap in Sheffield to serve the 2,400 customers. In 1983 the Gas Department acquired its first tap off of a major pipeline in Lauderdale County and built a pipeline from Oakland into Florence. By 1998 we had our 5th tap and gate station providing our system with one of the best integrated gas supplies in the United States. Today, with its high-pressure distribution system, the City of Florence Natural Gas Department also resells natural gas to 15,375 customers.

PRODUCTS TRANSPORTED

Product	Leak Type	Description
Natural Gas	Gas	<p>Vapor: Lighter than air. Very flammable and a white vapor cloud may be visible near the site of a leak.</p> <p>Health Hazards: Extremely high concentrations may cause irritation or asphyxiation.
