ABOUT SYLACAUGA UTILITIES BOARD

Sylacauga Utilities Board, headquartered in Sylacauga, AL, is a natural gas transmission and distribution system spanning over 400 miles in East-Central Alabama. The Utilities Board also provides electric, water, sewer, and internet service to Sylacauga and the surrounding areas.

Sylacauga Utilities Board's 65 employees and its pipeline system are located throughout Talladega, Coosa, and Northwest Tallapoosa Counties.

WHAT DOES SYLACAUGA UTILITIES BOARD DO IF A LEAK OCCURS?

The Sylacauga Utilities Board works together with emergency responders, and state and local agencies to prevent and prepare for emergencies. We maintain up-to-date operations and maintenance procedures as well as emergency response procedures which are made available to local and state authorities.

Upon notification of an incident or leak, the Utilities Board will immediately dispatch trained personnel to investigate.

The personnel are trained to protect life, properties, and facilities and will take steps to minimize and isolate the pipeline emergency.

HAZARD AWARENESS AND PREVENTION MEASURES

Like all forms of energy, natural gas must be handled properly. A gas leak caused by damage to a pipeline may pose a hazard and has the potential to ignite. The Sylacauga Utilities Board works diligently to ensure pipeline safety through a variety of measures including:

- Coordination with Alabama 811 (811)
- Inspection Programs and Workforce Qualifications
- Around the Clock Emergency Response of Pipeline Personnel (256) 249-0372
- Design and Construction Practices
- Alabama Public Service Commission Oversight

The Sylacauga Utilities Board maintains an ongoing relationship with local emergency response officials, in order to prepare for and respond to any pipeline emergency. In a Emergency call 911.
