

WHO IS ALBEMARLE CORPORATION

Albemarle Corporation has two sites in Southwestern Arkansas. The Magnolia South Plant is located in the heart of Columbia County where it operates 19.1 miles of natural gas pipelines. In addition to the natural gas pipelines, the Magnolia South and West Plant have 200 miles of sour gas non-jurisdictional gathering lines. These gathering lines are located throughout Columbia County. One transmission line begins at the old Hamilton Gas Plant off Highway 19 and runs 3.7 miles to the South Plant just off Highway 79 South. The second transmission line originates at the Petrochem Plant North of Magnolia off Highway 371 and runs 4.6 miles to the West Plant and then runs 10.8 miles from the West Plant to the South Plant.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us.

ALWAYS CALL 811 BEFORE YOU DIG!

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information.

EMERGENCY CONTACT:

1-870-235-6000

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:

ARKANSAS COUNTIES OF OPERATION:

Columbia

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding Albemarle Corporation's emergency response plans and procedures, contact us directly.
