ABOUT FLYING PIG PIPELINE COMPANY, L.P.

Flying Pig Pipeline Company, L.P. is a full service natural gas pipeline company operating in Independence, Van Buren and Conway counties. Major services include gas gathering, transportation, compression, dehydration, and marketing of mostly Fayetteville Shale gas wells. Flying Pig Pipeline Company, L.P.'s operational and commercial team of employees has many years of experience in all aspects of constructing, operating and maintaining highly efficient and safe gas pipelines.

WHAT DOES FLYING PIG PIPELINE COMPANY, L.P. DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Flying Pig Pipeline Company, L.P. invests significant time and capital maintaining the quality and integrity of their pipeline systems. Flying Pig Pipeline Company, L.P. also utilizes aerial surveillance and/or on-ground observers to identify potential dangers. Specific information about Flying Pig Pipeline Company, L.P.'s program may be found by contacting us directly.

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames

EMERGENCY CONTACT: 1-877-579-7994

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:		
Natural Gas	1971	115

ARKANSAS COUNTIES OF OPERATION:

Cleburne Independence

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding Flying Pig Pipelines emergency response plans and procedures, contact us directly.
