

ExxonMobil

ExxonMobil Pipeline Company (EMPCo) is committed to conducting its business in a safe, reliable and environmentally responsible manner. We follow a comprehensive integrity management system that requires compliance with all applicable laws and regulations and systematic identification and management of safety, health and environmental risks. We regularly test and maintain our pipelines using cleaning devices, diagnostic tools and cathodic protection to detect and prevent corrosion.

We patrol our pipeline routes through ground and air surveillance and closely monitor our operations through a 24-hour control center. Our control center includes sophisticated computers, alarms and other technologies used to monitor and control our pipeline systems and enables us to implement immediate protective measures should a leak be detected.

HERE'S HOW YOU CAN HELP US KEEP OUR PIPELINES SAFE:

- Keep the rights of way near or on your property clear of any kind of obstruction. Property owners should not dig, build, store or place or plant anything on the right of way. Pipeline rights of way must be kept free of structures and other obstructions in order to provide us access to the pipeline for maintenance, assessments, as well as in the event of an emergency.
- Before beginning work on any excavation project, especially those

near a pipeline (marked by a pipeline marker), call 811 -- the national one-call number -- or your state's One Call System. Every digging job requires a call -- even small projects like planting trees or shrubs. It is for your safety and that of the public. It is a free call -- and it is the law! You can find out more about pipelines operating in your area from the National Pipeline Mapping System - www.npms.phmsa.dot.gov.

- We seek your help in keeping our pipelines safe. We ask that you report any unusual sounds, smells or suspicious activity to our 24-hour emergency number, **1-800-537-5200**. You can call us at anytime with your concerns.

At EMPCo, we work hard to prevent a pipeline incident, but in the unlikely event of a pipeline emergency, we are prepared to respond quickly. We regularly communicate, plan and drill with your local emergency personnel, such as fire and police departments, to ensure our response to an incident is well-coordinated and effective.

EMERGENCY CONTACT: 1-800-537-5200

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:

Crude Oil	1267	128
Diesel Fuel	1202/1993	128
Gasoline	1203	128
Kerosene	1223	128

ILLINOIS COUNTIES OF OPERATION:

Champaign	Marion
Fayette	Moultrie
Ford	Piatt
Kankakee	Shelby
Livingston	Will

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.
