

WHO IS KINDER MORGAN

With approximately 70,000 miles of natural gas pipelines, Kinder Morgan owns an interest in or operates the largest natural gas network in North America. We serve the major consuming markets of the United States, and our pipelines transport approximately 38 percent of the natural gas consumed in the U.S. Our pipelines are connected to every important natural gas resource play and supply area, including the Eagle Ford, Marcellus, Bakken, Utica, Uinta Permian, Haynesville, Fayetteville and Barnett.

We remain bullish on the future of natural gas and believe that it will be the fuel of choice in North America for many years to come. Certain industry experts project natural gas demand in the U.S. will increase by 35 percent to nearly 110 billion cubic feet per day during the next decade. This increase in natural gas supply and demand is driving the need for transport capacity from the Marcellus and Utica shale plays to growing demand centers on the Gulf Coast. Additional opportunities include the need for more capacity in the Northeast, demand for gas-fired power generation,

LNG exports, industrial demand growth, and exports to Mexico. As a result, our Natural Gas Pipelines business has a plethora of exciting growth opportunities that we are executing and pursuing.

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Leave the area immediately in an upwind direction and warn others to stay away
- Do not light a match, start an engine, use a telephone or cell phone or turn on/off any electrical appliances, and avoid potential ignition sources which may cause an explosion or fire
- Once you are a safe distance away from the potential leak, call 911 and Kinder Morgan.
- Do not drive into an area where you suspect a leak or vapor cloud, and do not touch or operate pipeline valves
- Avoid making contact with escaping liquids or vapors as potential hazards may include eye, skin and respiratory irritation and the product may be highly flammable

PIPELINE LEAK?

- Dead vegetation, liquid on the ground near the pipeline
- Dirt being blown into the air
- Fire or dense white cloud or fog
- Hissing or roaring sound
- Pungent odor such as sulfur (rotten eggs)

PIPELINE SAFETY

Before you add a fence, plant a tree or dig for any reason call 811 or your local One-Call Center at least two working days before starting your project to have underground utility lines marked.

**EMERGENCY CONTACT:
 1-800-733-2490**

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:		
Natural Gas	1971	115

**ILLINOIS
 COUNTIES OF OPERATION:**

Clinton	Madison
Effingham	Marion
Fayette	Perry
Jackson	Washington

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

One-Call is a free service that protects you, your family or employees and your property.

Careless digging is unsafe. It is estimated that there are thousands of incidents each year in which underground facilities are damaged during excavation, with many of these resulting in injuries and fatalities

REMEMBER:

- Call 811 at least two working days before digging
- Wait to have the lines marked
- Dig with care
- Immediately report dents, scratches or damage to Kinder Morgan

ALWAYS CALL 811 BEFORE YOU DIG!

**Know what's below.
 Call before you dig.**

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator. The federal government provides maps of transmission pipelines in your community through the National Pipeline Mapping System at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding Kinder Morgan Natural Gas Pipelines emergency response plans and procedures, contact us at www.kindermorgan.com/public_awareness
