**ABOUT NATURAL GAS**

- Colorless, odorless, tasteless, and non-toxic.
- Cleanest burning fossil fuel
- Will burn only in concentrations of about 4.5% to 15%
- Natural gas is lighter than air
- Has an ignition temperature of around 1,100 to 1,200 degrees Fahrenheit

**AREA OF OPERATION**

The purchase point for Indiana Utilities is in Louisville, Kentucky. From there, Indiana Utilities maintains five miles of pipe to the Ohio River crossing. Pipeline diameter varies from 1/5" - 8". On the Indiana side of the river, 151 miles of distribution mains deliver natural gas in Harrison County to about 3,100 customers including residential and commercial facilities.

**RECOGNIZING A LEAK**

Natural gas pipelines are the safest mode of transportation. However pipeline failures can occur. To recognize a leak, use your senses.

**SIGHT**

- Dirt blowing in the air
- Water bubbling in a river, creek, or a puddle
- Dead or dying vegetation near a right-of-way
- Fire burning at or around ground level

**SOUND**

- Hissing, blowing or roaring sound

**SMELL**

- The smell of rotten eggs

**IF YOU SUSPECT A LEAK**

- Leave the area immediately
- Do not use ignition sources such as cell phones, vehicles, electrical powered devices, or cigarettes
- After leaving the area contact your local gas company or 911

**WHO TO CALL**

Always call 811 two days before digging. To contact Indiana Utilities you can call 812-738-3235. For after hours service you can call 1-800-589-8142. In the event of a leak or damage call Indiana Utilities or 911.
