Midwest Energy, Inc.

Midwest Energy, Inc., is the only customer-owned electric and natural gas cooperative in Kansas. Headquartered in Hays, Midwest Energy serves nearly 50,000 electric and 42,000 natural gas customers in 41 central and western Kansas counties.

Midwest Energy provides natural gas distribution services to customers in 35 counties through a network of 3,000 miles of gas distribution line, most operating at 700 psi or less. These gas distribution lines serve schools, hospitals, businesses and homes in rural communities, as well as irrigation customers throughout Midwest Energy's service area.

With eight customer service offices and natural gas operations centers in Atwood, Colby, Great Bend, Hoxie, Hays, Phillipsburg, Scott City and WaKeeney. Midwest Energy is building a brighter future for its customer owners by providing safe, reliable and efficient energy services, while fostering leadership and growth throughout the region.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

Safety always comes first at Midwest Energy, both for our employees and for our customerowners.

All 29 Midwest Energy offices and warehouses met strict federal and state safety standards, qualifying them for the Kansas Department of Labor's Safety and Health Achievement Recognition Program (SHARP) certification. Midwest Energy continuously improves upon its aggressive training and safety program, to ensure our personnel are operating in compliance with all safety standards and employing industry best practices.

Public safety and education are also a priority. Midwest Energy is a member of Kansas OneCall, and actively promotes 811 and Dig Safe awareness in the communities it serves. Dozens of public safety demonstrations explaining the safety risks associated with electricity and natural gas are provided to first responders, industry groups and grade and high school students.

You can learn more about Midwest Energy's commitment to safety, health and the environment by visiting our web site, at www.mwenergy.com.
