

Riviera Operating, LLC, (RVRA) Hugoton Gas Gathering System (RHGGS) is located in Ulysses, Kansas in the Southwest corner of Kansas. The RVRA Operations Center, operates in ten counties of SW Kansas. RVRA operates and contract operates 2.26 miles of regulated intra-state pipelines in two of the ten counties. RVRA operates 205 compressors with approximately 121,000 horsepower available, which delivers an average of 140 MMCFD from 3900 wells. The RHGGS pipeline system consists of approximately 3000 miles of gathering pipeline and compression stations scattered within a 55-mile radius of Ulysses. Riviera's company headquarters is located in Houston, Texas.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

A fundamental commitment at Riviera Operating, LLC, is to protect our employees, our contractors, the public, and the environment. Riviera's EH&S policy guides all of our activities and will not be compromised in any business endeavor.

We will:

- Comply with all applicable environmental, health and safety laws and regulations.

- Implement the EH&S Policy through demonstrated leadership and the application of appropriate resources.
- Assign responsibility and accountability throughout RVRA for EH&S performance by setting quantifiable goals, tracking progress and reporting results.
- Anticipate and manage risk through business processes that emphasize prevention but prepare us to effectively respond in the event of an incident.
