

WHITE CLIFFS PIPELINE, L.P.

6120 South Yale Ave. Ste 1500
 Tulsa, OK 74136
 Phone: (918) 524-8100
 Website: <http://www.semgroupcorp.com>

White Cliffs Pipeline, LLC operates two parallel 12" diameter crude oil pipelines that extend 527 miles from Platteville, Colorado to Cushing, Oklahoma. The pipelines transport high quality crude oil produced from the Wattenberg field in the Denver Julesburg Basin of Colorado to the market and pipeline interconnect center at Cushing, Oklahoma, known as the "Cushing Hub". In 2019, one of the 12" crude oil pipelines will be modified to transport natural gas liquids (NGL) and will be operational by the end of the year.

White Cliffs is operated by Rose Rock Midstream, LP headquartered in Tulsa, Oklahoma. Rose Rock Midstream gathers, transports and stores crude oil and condensates.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

In all aspects of our business and operations, White Cliffs Pipeline constantly strives for the highest level of performance in regard to environmental, health and safety issues. This corporate responsibility is a reflection of our core

value to conduct business in a socially responsible and ethical manner with all stakeholders.

White Cliffs Pipeline invests significant time and capital maintaining the quality and integrity of our pipeline system. The pipeline is monitored 24 hours a day via a manned control center in Tulsa, Oklahoma. Aerial surveillance is also used to monitor the condition of the pipeline right of way and identify potential dangers. The Control Center personnel continuously monitor the pipeline system and assess changes in pressure and flow. Field personnel are notified if there is a possibility of a leak.

EMERGENCY PREPAREDNESS

White Cliffs Pipeline personnel regularly communicate, plan and train with local emergency responders. Upon notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders. White Cliffs personnel and emergency responders are trained to protect life, property and facilities and are trained to take steps to minimize the impact to the environment and the public. Emergency response personnel may contact White Cliffs directly for information regarding our emergency response plan.

INTEGRITY MANAGEMENT

In accordance with federal regulatory requirements, White Cliffs Pipeline has

**24-Hour Emergency Contact:

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

developed a hazard and assessment program known as an Integrity Management Program (IMP). This program focuses on the identification and mitigation of hazards to the pipeline system. Specific information about White Cliffs program may be found by contacting our Integrity Manager, Mr. O.C. Simpson, at 918-524-7327.

CALL BEFORE YOU DIG!

Call 811 anytime you have work that requires digging. One easy call to 811 from anywhere in the US starts the process to get your underground pipeline and utility lines located and marked for FREE. Once the underground lines have been marked you will know their approximate location and can dig safely. For more information see <http://www.call811.com>.

NATIONAL PIPELINE MAPPING SYSTEM

This web-based system was created by the US Department of Transportation, Pipeline and Hazardous Materials Safety Administration, Office of Pipeline Safety. For a list of pipeline operators with pipelines in your area and their contact information go to <http://www.npms.phmsa.dot.gov/>
