**OVERVIEW**

Gulf South Pipeline Company, LLC (Gulf South) is a network of interstate natural gas pipelines that provides transportation and storage services. Gulf South transports natural gas directly from the Barnett, Eagle Ford, Haynesville, SCOOP/STACK, and Woodford shale plays, and indirectly from other basins via third-party pipelines and the Perryville Exchange. Deliveries are transported to both on-system and off-system markets in the Gulf Coast area, as well as to off-system markets in the South Central, Midwestern, and Southeastern United States.

**COMMITMENT TO SAFETY, HEALTH & THE ENVIRONMENT**

Gulf South is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Gulf South's qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities. Gulf South has committed the necessary resources to fully prepare and implement its emergency response plans.

**COMMUNICATIONS**

Gulf South utilizes its 24-hour Pipeline Control Room (1-800-850-0051) as a hub of communications in emergency response situations.

The Control Room has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones, portable radios, satellite phones and/or land-line telephone systems from company facilities and offices.

**PIPELINE LOCATION AND MARKERS**

The purpose of a pipeline marker is to identify a pipeline right-of-way and to provide information about Gulf South's pipelines including operator name; phone numbers, in case of a possible emergency; and the product inside. Markers indicate the general, not exact, location of a pipeline and do not necessarily follow a straight course between two markers. Never rely solely

on the presence or absence of pipeline markers - someone may have moved or removed the marker.

For additional information that is available for emergency responders, please see the PIMMA link on the National Pipeline Mapping System's website: npms.phmsa.dot.gov.

**IN CASE OF AN EMERGENCY**

Emergency preparedness and planning measures are in place at Gulf South in case a pipeline incident occurs. Gulf South also works closely with local emergency response organizations to educate them regarding our pipelines and how to respond in the unlikely event of an emergency.

Should an emergency occur, Gulf South's objective is to resolve the situation quickly and safely. Two-way communication with emergency responders is critical for this resolution. Gulf South needs immediate access to the incident location in order to assess and develop a plan to resolve the situation.

**PARISHES OF OPERATION:**

Acadia	Madison
Allen	Morehouse
Ascension	Natchitoches
Assumption	Orleans
Avoyelles	Ouachita
Beauregard	Plaquemines
Bienville	Rapides
Bossier	Red River
Caddo	Richland
Calcasieu	Sabine
Caldwell	St. Bernard
Cameron	St. Charles
Claiborne	St. Helena
De Soto	St. James
East Baton Rouge	St. John the Baptist
East Carroll	St. Landry
Evangeline	St. Martin
Franklin	St. Mary
Grant	St. Tammany
Iberia	Tangipahoa
Iberville	Terrebonne
Jackson	Union
Jefferson	Vermilion
Jefferson Davis	Vernon
La Salle	Washington
Lafayette	Webster
Lafourche	West Carroll
Lincoln	Winn
Livingston	

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

Do not attempt to operate any pipeline valves. You may inadvertently route additional gas to the leak. Only qualified Gulf South personnel should operate valves on Gulf South's pipeline facilities.
