**COMPANY PROFILE**

The link between natural gas exploration and production and the enduse customer is known as the midstream segment of the natural gas industry. DCP Midstream leads the midstream segment as the nation's largest natural gas gatherer, the largest natural gas liquids (NGLs) producer and one of the largest NGL marketers.

DCP Midstream owns/operates approximately 187 miles of pipeline in Louisiana.

**COMMITMENT TO SAFETY, HEALTH AND ENVIRONMENT**

At DCP Midstream, we design, install, test, operate and maintain our pipelines to meet or exceed regulatory standards. We test our pipelines to withstand a higher pressure than encountered in daily use. Our employees receive regular, thorough training to safely operate and maintain our pipeline systems. As part of our ongoing damage prevention program, we patrol our pipeline right-of-way corridors by air and periodically on foot to spot potential safety problems, such as possible leaks or unauthorized construction.

DCP Midstream is committed to the safe operation of our pipelines and the

protection of our employees, the public, and the environment.

For more information regarding DCP Midstream's emergency response plans, maps and procedures, please contact us at the address listed above.

**ONLINE TRAINING AVAILABLE**

The American Petroleum Institute (API) and the Association of Oil Pipelines (AOPL) have developed a **FREE** online training portal designed to provide training on emergency response techniques for hazardous liquids or natural gas pipeline incidents. Please visit [www.nasfm-training.org/pipeline](http://www.nasfm-training.org/pipeline) to register.

**PRODUCTS TRANSPORTED**

**Product:** Natural Gas

**Leak Type:** Gas

**Vapors:**

Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

**Product Hazards:**

Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or

asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.

**Product:** Natural Gas Liquids

**Leak Type:** Gas

**Vapors:**

Initially heavier than air, spread along ground and may travel to source of ignition and flash back. Product is colorless, tasteless and odorless..

**Product Hazards:**

Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite. Fire may produce irritating and/or toxic gases.
