**ABOUT ENVEN ENERGY VENTURES**

EnVen Energy Ventures (EnVen), headquartered in Houston Texas, with offices in Metairie, and Lafayette La., is an Independent Energy Company with operations mostly in the Federal Waters of the Gulf Of Mexico, we currently have 60 employees.

**WHAT DOES ENVEN ENERGY VENTURES DO IF A LEAK OCCURS?**

To prepare for the event of a leak, EnVen regularly communicates and plans with local emergency responders. Upon notification of an incident or leak, EnVen will immediately dispatch trained personnel to assist emergency responders. EnVen pipeline operators are trained to protect life, property, and facilities in case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

**MAINTAINING SAFETY AND INTEGRITY OF PIPELINES**

EnVen invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most active pipelines

are monitored 24 hours a day, but EnVen also utilizes aerial surveillance and on ground observers to identify potential dangers. Should there ever be a leak the pipeline would be isolated immediately by field personnel who are on site 24 hours a day, and who would call out emergency response personnel.

Gas transmission and hazardous liquid pipeline operators have developed supplemental hazard and assessment programs known as Integrity Management Programs (IMPs). Specific information about EnVen’s program may be found on our Web site, or by contacting us directly.

**HOW TO GET ADDITIONAL INFORMATION**

For an overview of EnVen’s IMP, go to [www.enven.com](http://www.enven.com) or contact us at 713-335-7000.
