

COMPANY PROFILE

St. Paul Park Refinery has joined Marathon Petroleum Corp. (NYSE: MPC) to become a leading U.S. refining, marketing and midstream company. MPC is the nation's largest refiner, with a crude oil refining capacity of more than 3 million barrels per calendar day in its 16-refinery system. MPC's high-quality, nationwide retail and marketing business includes approximately 3,900 company-owned and -operated stores and 7,800 branded locations. MPC also owns the general partners of MPLX LP and Marathon Petroleum Corp. Logistics LP, two strong, customer-focused midstream master limited partnerships.

ENVIRONMENTAL, HEALTH & SAFETY COMMITMENT

At Marathon Petroleum Corp., we are committed to conducting business in a manner that promotes the safety, health and security of those working and living in communities near our facilities, while protecting the environment and sustaining the ecosystems in which we do business.

Environment

We operate in environmentally sensitive and diverse locations that have varying and complex regulations. We use and strengthen our procedures, programs, tools and systems to assist us in managing compliance with existing regulations and to establish processes that allow continuous improvement and go beyond regulatory compliance. To do this, we develop locally managed goals and performance targets. At a corporate level, we review our management of key material issues, including our environmental footprint.

Health & Safety

Marathon Petroleum Corp. is committed to operating our refineries, pipelines, retail stations and other facilities in a manner that promotes the safety, health and security of our employees, our customers and the communities where we do business. Continuously improving personal and process safety is one of our core values. Our goal targets zero incidents that harm our employees, contractors or neighbors, or put our facilities at risk.

MARATHON PETROLEUM CORP. PIPELINE LOCATION AND MARKERS

Examples of pipeline markers that can be found along Marathon Petroleum Corp. pipeline systems are shown below. These are important indicators of where Marathon Petroleum Corp. pipeline systems are located, as most pipelines are underground. Marathon Petroleum Corp.'s emergency response contact number is located on the marker for reporting any leaks, unauthorized excavation or suspicious activities near the pipeline system.

Excavators, developers, homeowners or anyone planning excavation activities are required to call 811 at least two days prior to starting any work. Qualified Marathon Petroleum Corp. pipeline operators will mark the location of the pipeline in accordance with APWA and state specific marking requirements.

You'll know what's below by the different flags, stakes and paint

- Red** - Electric
- Yellow** - Gas, oil or petroleum
- Orange** - Communications
- Blue** - Potable water
- Purple** - Reclaimed water, irrigation
- Green** - Sewer
- White** - Proposed excavation
- Pink** - Temporary survey

EMERGENCY RESPONSE

Marathon Petroleum Corp.'s goal is to share information pertinent to emergency preparedness. Marathon Petroleum Corp. will provide information to local emergency responders upon request. However, it is critical to recognize the signs of a leak and prepare the appropriate response.

Warning Signs:

- A pool of liquid on the ground
- A rainbow sheen on the water
- Continuous bubbling in water
- Discolored or dead vegetation
- Dirt or water being blown into the air
- White vapor cloud
- Frozen areas or vegetation
- Unusual hissing or roaring sound
- Odors such as gasoline, oil, sulfur and rotten eggs

Emergency Response:

- DO Eliminate all ignition sources - all equipment used must be grounded
- DO NOT touch or walk through spilled material
- DO stand upwind
- DO Isolate spill or leak area for at least 100 meters (330 feet) in all directions
- DO Keep unauthorized personnel away
- DO call 911 and evacuate the area in case of emergency
- DO NOT attempt to turn valves
- DO NOT attempt to move vehicles or equipment from the area

EMERGENCY NUMBER: 1-651-768-5000

About Marathon Pipe Line LLC

Marathon Pipe Line LLC (MPL), a subsidiary of MPLX LP (MPLX), assumed operatorship of a high-pressure liquid pipeline in your community from the previous operator, Andeavor. MPL operates underground pipelines that transport crude oil, petroleum products and natural gas to and from terminals, refineries and other pipelines across the nation. Movement of these liquids and gas through pipelines is the safest method of transporting energy. To learn more about MPL, log on to www.marathonpipeline.com.

Commitment to Safety, Health & the Environment

MPL is committed to experiencing no accidents, no harm to people, and no damage to the environment. MPL utilizes a comprehensive risk-based Integrity Management Program to ensure the safety of the pipelines, where a pipeline release could affect a densely populated area, drinking water, ecological area, or a commercially navigable waterway. These management programs include routine in-line inspection, maintenance, leak detection, surveillance, and corrosion control. You can find more information at the MPL website listed above or by contacting a nearby MPL area office.

Emergency Response

When an emergency occurs, gain control of the situation as quickly as possible with the following objectives:

- Assess the situation. Determine the hazards and risks.
- Only enter a hazardous area if personnel are properly trained and equipped.
- Never enter a hazardous area without a properly trained and equipped backup.
- Rescue any injured person, if safe to do so.
- Evacuate persons in any endangered area.

- Prohibit the public from entering the area.
- Control ignition sources.
- **Call MPL's emergency number 1-651-768-5000** and provide the following information:
 - Location;
 - Nature of the problem; and
 - A telephone number at which a responsible person can be contacted.

Emergency Preparedness

Although you are familiar with the steps required to safeguard the public, MPL has planned responses to unique emergency situations that may arise with its pipeline facilities and operations. Here are a few key topics that you should review prior to the unlikely event of a pipeline emergency:

Emergency Response Plans

MPL has developed extensive response plans for all of its facilities based on the knowledge of its own personnel, available equipment, tools and materials. These plans are accessible at every facility. This document provides a general overview of MPL's capabilities. For more detailed information or to review the Emergency Response Plan, please call 1-855-888-8056. MPL can provide assistance in planning your emergency procedures, recognizing that the primary authority lies with you, the local emergency response organization.

Communicating with MPL During an Emergency

If a pipeline event occurs, emergency response officials will be notified and MPL operations personnel will be dispatched to the site. MPL personnel and/or contractors will be at the site as quickly as possible.

If you or another emergency response organization has set up an Incident Command Center prior to the arrival of MPL personnel, the first MPL employee

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

to arrive at the site should be introduced to the incident commander as the MPL representative.

Public Safety and Evacuations

Evacuation plans and procedures should reflect the available assets and capabilities of your own organization. Expert knowledge of your area is key to creating the best evacuation, traffic control and re-routing, and railroad stoppage plans in order to limit public exposure and minimize accidental ignition.

Fire or Explosion

MPL does not have dedicated fire response personnel and must rely on the capabilities of local responders. Petroleum and natural gas emergencies present unique challenges for response personnel, so proper training is crucial. Contact your state fire marshall for pipeline emergency training. The U.S. Department of Transportation Emergency Response Guidebook provides information on potential hazards, public safety and emergency response.

Rescue or Medical Duties

MPL employees are not trained to conduct rescue operations of any kind. Emergency response personnel will be contacted to assist with any needed rescue. Coordination will be made with emergency services or with a local hospital or medical provider in the event of a medical emergency.
