

Streamline Midstream Inc.

A NOTE FROM STREAMLINE MIDSTREAM, INC.

Streamline Midstream Inc., owns and operates gathering processing, treating, compression and transportation assets for gas throughout the country. The company headquarters is in Lindsay, OK and operates in the Mid-Continent Region, with facilities located in the Anadarko basin. Streamline Midstream, Inc. operates jurisdictional (PHMSA regulated) natural gas gathering and transmission pipelines in Grady county, Oklahoma.

DAMAGE PREVENTION

Most pipeline accidents occur when individuals are not aware of a pipeline's location before they begin excavation. You can help prevent pipeline incidents by contacting your state one call agency before you dig. One easy phone call to 811 gets the approximate location of underground utility lines marked for free. For more information go to: www.call811.com

**Know what's below.
Call before you dig.**

NATIONAL PIPELINE MAPPING SYSTEM

National Pipeline Mapping System
To view and download transmission pipelines in your county, visit the National Pipeline Mapping System at: <https://www.npms.phmsa.dot.gov/>. This online platform is used by general public, government officials, emergency officials and pipeline operators for a variety of tasks including emergency response planning, smart growth planning, critical infrastructure protection, and environmental protection.

LEAK RECOGNITION AND RESPONSE

Possible signs of a leak

- Dead vegetation
- Bubbling or hissing sound
- Unusual smell

Response to a leak

- Leave the leak area immediately.
- Do not touch, breathe, or come in contact with the product.
- Do not light a match, start an engine, use a telephone, switch on/off light switches or do anything that may cause a spark in the area or vicinity of the leak.
- From a safe location immediately call 911 and Seadrift Coke L.P. at 361-552-8300 and report exactly what you have seen, heard, or smelled and where this incident or event took place.
- Warn others but do so without entering or re-entering the area where a pipeline leak is suspected.

PREVENTION MEASURES UNDERTAKEN

Streamline Midstream invests significant time and capital maintaining the quality and integrity of their pipeline systems.

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

We utilize on-ground observers to identify potential dangers. Control center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak.

EMERGENCY PREPAREDNESS

Streamline Midstream regularly communicates with the proper Emergency and Public officials to ensure that in the event of an emergency the proper steps are taken. If you are an agency that would like more information about this or to get a copy of the company's Emergency Response Plan, please contact Curtis Smith at 405-756-6041.
