ABOUT CNX RESOURCES CORPORATION

With a history of energy leadership that stretches back more than 150 years, CNX is a premiere independent oil and gas exploration and production company headquartered in Canonsburg, PA and with operations centered in the Appalachian Basin. With a spirit of innovation, we're pioneering a new tomorrow through technological advancements in shale gas exploration and production in the most prolific natural gas basin in the world. From the well head to diverse end-user markets for natural gas, resources from the Marcellus and Utica shale are disrupting the energy paradigm at home and abroad. CNX employs over 550 personnel who are responsible for more than 12,000 producing gas wells. CNX produced 407.2 net BCF of natural gas in 2017 and boasts 7.6 trillion cubic feet equivalent of proved gas reserves.

LIAISON WITH APPROPRIATE PUBLIC OFFICIALS

The Code of Federal Regulations Title 49, Part 192 requires operators of natural gas pipelines to maintain liaison with appropriate fire, police, and other public officials to:

- 1) Learn the responsibility and resources of each government organization that may respond to a gas pipeline emergency;
- 2) Acquaint the officials with the operator's ability in responding to a gas pipeline emergency;
- 3) Identify the types of gas pipeline emergencies of which the operator notifies the officials; and
- 4) Plan how the operator and officials can engage in mutual assistance to minimize hazards to life or property.

CNX attends the Paradigm Liaison Services meetings within its operating area and has developed this information in order to comply with the Code of Federal Regulations Part 192.

WHAT CONSTITUTES A GAS PIPELINE EMERGENCY?

A gas pipeline emergency may be, but is not limited to one or more of the following situations:

- 1) Gas detected inside or near a building.
- 2) Fire located near or directly involving a pipeline facility.
- 3) Explosion occurring near or directly involving a pipeline facility.
- 4) Natural disaster involving a pipeline facility including subsidence, landslides, flooding, washed-out or exposed pipelines.
- 5) Third party damage of the pipeline.
- 6) Vandalism or sabotage to a pipeline facility.

These are the type of emergencies of which police, fire, and emergency services may be notified.

RESOURCES OF EMERGENCY RESPONSE ORGANIZATIONS

The various organizations that have been invited to attend the Paradigm Liaison Services meetings within the CNX operating area have been asked to complete an Emergency Response Report form that includes Public Agency Information, Emergency Information and Emergency Response Capabilities. The information provides CNX with an understanding of the resources the various agencies have to assist in the event of a gas pipeline emergency.

RESPONSIBILITY OF EMERGENCY RESPONSE ORGANIZATIONS

CNX may request assistance from emergency agencies in the event of a gas pipeline emergency. Following are some guidelines concerning what may be requested from the agencies:

Police

- Establish a restricted zone around the emergency site.

**EMERGENCY CONTACT:
1-800-583-3755**

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:		
Natural Gas	1971	115

PENNSYLVANIA COUNTIES OF REGULATED PIPELINE OPERATION:

Armstrong Indiana
 Greene

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

- Evacuate buildings within the restricted zone.
- Prevent unauthorized personnel from entering the restricted zone.
- Preserve the area for accident investigation.

Fire

- Establish a restricted zone around the emergency site.
- Evacuate buildings within the restricted zone.
- Eliminate potential ignition sources.
- Search and rescue operations.

- Contain and control secondary fires.

Emergency Services

- Provide medical assistance.
- Provide ambulance service.
- Provide air evacuation service.

What not to do:

- Do not operate any mainline valves, pipeline components or equipment.
- If gas is not burning, do not take any action that may ignite it. If gas is burnin

CNX: EMERGENCY PLAN RESPONSES TO A GAS PIPELINE EMERGENCY

In the event of a gas pipeline emergency, CNX personnel have been trained, qualified and may perform several or all of the following actions depending on the severity of the emergency:

- Locate the site of the emergency.
- Take actions toward protecting the public first and then property, these actions may include:
 - i. Detect presence of gas in atmosphere.
 - ii. Reducing or stopping the flow of gas.
 - iii. Establishing a restricted zone around the emergency site.

- iv. Eliminating potential ignition sources.
 - v. Evacuation of buildings within the restricted zone.
- Notify police, fire department, and/or other appropriate officials.
 - Provide a company representative to work with appropriate officials during the emergency.
 - Establish a staging area to coordinate and develop a plan of action with emergency officials.
 - Provide facility maps and information to the appropriate officials.
 - Repair the affected facilities.
 - Investigate the cause of the incident.

If you would like to discuss or obtain a copy of our Emergency Response Plan, please visit our display table after the program or contact us using the information provided at the top of the company page.

PIPELINE SAFETY AND INTEGRITY

The company's Communications/Control Center operates 24-hours a day, seven days a week all throughout the year. We patrol our pipeline rights of way and conduct leak surveys on a regular basis. We conduct periodic inspections of our pipelines and our employees who perform safety sensitive functions receive updated training and are qualified

in accordance with the US Department of Transportation regulations for natural gas pipeline operators.

NATIONAL PIPELINE MAPPING SYSTEM

The United States Department of Transportation has a list of pipeline operators searchable by state, county and zip code. To obtain this list, visit www.npms.phmsa.dot.gov.
