Eastern Shore Natural Gas (ESNG) Company, a subsidiary of Chesapeake Utilities Corporation (CUC), is headquartered in Dover, DE and operates over 500 miles of natural gas transmission pipelines in Pennsylvania, Delaware and Maryland. The northernmost point is located in Honey Brook, PA, the westernmost point is located in Cambridge, MD, the easternmost point in Berlin, MD and the southernmost point is located in Eden, MD. There are three (3) Compressor Station sites on the ESNG system, which are located in Cochranville, PA, Delaware City, DE and Bridgeville, DE. There are also more than ninety (90) metering and regulating (M & R) sites on the ESNG system. These are above-ground facilities located inside chain link fences along the route and serve to lower the pressure and meter the use of natural gas for ESNG's customers.

ESNG is very committed to safety, in fact, we have been presented with the American Gas Association's (AGA's) national award for safety ten times. This award is given to the company with the nation's best safety record among transmission companies of a similar size.

ESNG patrols the pipeline by foot, vehicle, air patrol, and internal and external inspections on a regular basis to assure its reliability.
