Energy Transfer Partners, a Texas-based energy company founded in 1995 as a small intrastate natural gas pipeline company, is now one of the largest and most diversified master limited partnerships in the United States.

Strategically positioned in all of the major U.S. production basins, the company owns and operates a geographically diverse portfolio of energy assets, including midstream, intrastate and interstate transportation and storage assets. Energy Transfer operates more than 71,000 miles of natural gas, crude oil, natural gas liquids and refined products pipelines and related facilities, including terminalling, storage, fractionation, blending and various acquisition and marketing assets in 38 states.

- Intrastate Transportation and Storage Operations – approximately 7,500 miles of natural gas pipelines and three storage facilities.
- Interstate Transportation and Storage Operations – approximately 17,600 miles of natural gas pipelines; 5,900 miles of crude oil pipelines; and 1,800 miles of refined products pipelines along with 40 refined products marketing terminals.

- Midstream Operations – approximately 35,000 miles of natural gas gathering pipelines and more than 60 processing, treating and conditioning plants.
- NGL Transportation and Services – approximately 4,000 miles of NGL pipelines, three processing plants, four fractionation facilities and NGL storage facilities with aggregate working storage capacity of approximately 53 million Bbls.

Energy Transfer operates approximately 7,500 miles of natural gas pipelines, 4,000 miles of NGL pipelines and three storage facilities located in Texas. Our midstream assets include approximately 35,000 miles of natural gas gathering pipelines and more than 60 processing, treating and conditioning plants.
