KC Midstream Solutions, LLC

ABOUT KC MIDSTREAM SOLUTIONS, LLC

KC Midstream Solutions, LLC, the midstream segment of Catalyst Energy, Inc., headquartered in Pittsburgh, Pennsylvania, provides natural gas compression, gathering and processing services.

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/ electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help too.

We participate in One-Call Centers and strongly encourage those who are going to dig to call their state One-Call Center or the 811 "Call before you dig" hotline to allow pipeline companies and owners of other buried utilities a chance to mark the underground facilities in the area before digging begins.

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where companies pipelines are in your area by going to the National Pipeline Mapping System.

**Know what's below.
 Call before you dig.**

CALL BEFORE YOU DIG. IT'S FREE, AND IT'S THE LAW!

One easy phone call to 811 starts the process to get your underground pipelines and utility lines marked

PENNSYLVANIA COUNTIES OF OPERATION:

McKean

Changes may occur. Contact the operator to discuss the pipeline systems and areas of operation.

for FREE. When you call 811 from anywhere in the country, your call will be routed to your state One-Call Center. Once your underground lines have been marked for your project, you will know the approximate location of your pipelines and utility lines, and can dig safely. More information regarding 811 can be found at www.call811.com.

Call your state's One-Call Center by dialing 811 before any excavation begins.

811 is the national "Call Before You Dig" phone number.
