

Buckeye Partners, L.P. is a publicly-traded master limited partnership (NYSE: BPL) that provides mid-stream energy logistics services. Buckeye owns and operates one of the nation's largest independent petroleum products common carrier pipeline networks providing refiners, wholesalers, marketers, airlines, railroads and other commercial end-users with dependable, all-weather transportation of refined petroleum products. The Partnership transports refined products by pipeline principally in the Northeastern and upper Midwestern states. Buckeye also operates and maintains pipelines that it does not own, primarily in the Gulf Coast region, under contracts with major oil and petrochemical companies. The combination of experienced and responsive professional staff, technical expertise and modern transportation facilities has earned the Partnership a reputation for providing high-quality, safe, reliable and efficient pipeline transportation services.

In addition to pipeline transportation services, Buckeye provides terminalling, storage and refined product distribution services. The Partnership owns more than 100 refined petroleum products terminals with an aggregate storage capacity of over 64 million barrels, and markets liquid petroleum products in certain regions served by its pipeline and terminal operations. Buckeye's flagship marine terminal in The Bahamas, BORCO, is one of the largest crude oil and petroleum products storage facilities in the world, serving the international markets as a premier global logistics hub.

Buckeye is committed to providing quality logistics services to its customers by continuing to grow and diversify its service offerings. As the petroleum supply and distribution functions continue to become more complex and critical, customers can rely on Buckeye to provide unsurpassed service. Buckeye's strengths are its strategic asset base, sound financial background, and dedicated employees. We look forward to undertaking the challenges in our expanding role as

a leading supplier of energy logistics services, and welcome the opportunity to continue to serve our valued customers.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

Buckeye's Public Awareness Program was developed to minimize and prevent hazards to the public, to the environment, and to Buckeye's facilities through increased public awareness and knowledge of Company operations and associated property rights. Buckeye's Public Awareness Program was designed to enhance public safety; decrease third party right of way encroachment activity and damage to pipeline facilities; provide better understanding of the role pipelines play in the energy needs of this Nation; improve the effectiveness of outside agencies' emergency response; and improve working relations with the general public and public officials. Accordingly, heightened awareness and a better understanding by the public of Buckeye's pipeline operations will supplement and enhance the Company's current maintenance, operations, safety policies and procedures.

EMERGENCY RESPONSE

While pipeline incidents are rare, Buckeye appreciates the hard work and effort of the many emergency responders that may be involved in helping us return the community to normal. In an emergency, Buckeye would utilize the Unified Command System during a response to a pipeline incident. The following critical tasks would need to be considered during a pipeline release:

- Responder Safety - Buckeye is committed to "Everyone Goes Home"
- Public Safety / Evacuation
- Traffic Control
- Vapor Suppression
- Site Security
- Fire Fighting
- Product Containment

BUCKEYE'S RESPONSE IN AN EMERGENCY

Buckeye is engaged in constant activity to maintain safe pipeline operations. In the event of a pipeline release, Buckeye will take the following steps to ensure public safety and protect the environment:

- Shut down the pipeline
- Close valves to isolate the problem
- Identify hazardous areas
- Dispatch personnel to the scene
- Excavate & repair the damaged line
- Work with emergency responders and the public in the affected area.

Buckeye's emergency response plan is available upon request.
