WHO IS COGENT MIDSTREAM LLC

We are a midstream natural gas pipeline operator based in Dallas Texas. Our operations in the Permian Basin of Texas consists of Cogent Midstream WesTex LLC and Cogent Midstream Products LLC. Counties of operation include Crockett, Glasscock, Irion, Mitchell, Reagan and Sterling. The majority of these pipelines are for natural gas and crude oil gathering purposes. In addition, our companies operate several intrastate natural gas transmission and natural gas liquid pipelines. Cogent Midstream LLC would like to take this opportunity to make you more aware of our pipelines and the product we transport. Please take time to read this informational guide, if you have any questions please contact our Pipeline Safety Department at 1-325-899-4512. Your comments and questions are very important to our operations.

If you observe any unusual or suspicious activity near our pipeline facilities or in the unlikely event an emergency occurs, please call us at any time using one of the numbers listed in this document.

PIPELINE LOCATION AND MARKERS

Pipeline markers like the one shown above are placed as close as practical over each buried pipeline and identify the product carried within the pipeline. Each marker will also include the name of the Operator and a number where we can be reached at all times. Our pipeline markers are commonly found at public road, rail and river crossings and along the entire length of the Right-Of-Way

SOME SIGNS OF A PIPELINE LEAK

- Blowing or hissing sound
- Dust blowing from a hole in the ground

- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area

IF YOU SUSPECT A PIPELINE LEAK

- Call 911 *Evacuate the area (upwind if possible) & prevent anyone from entering.
- Contact the Pipeline Company

**Know what's below.
Call before you dig.**

CALL 811 BEFORE YOU DIG! IT'S FREE, IT'S EASY, AND IT'S THE LAW!

Utility Owners: Texas811 has more than 1,600 members who play a vital role in protecting underground facilities around the state.

Excavators: As an excavator, it is extremely important you know where underground utility lines are located whenever digging is taking place.

For more information contact Texas811 at www.texas811.org

EMERGENCY RESPONSE

Personnel from Cogent Midstream LLC conduct annual emergency response

Natural Gas	1971	115
Natural Gas Liquids	1972	115

TEXAS

COUNTIES OF OPERATION:

Glasscock	Mitchell
Crockett	Reagan
Irion	Sterling

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

training. It is anticipated that most emergency calls will be received via our 24-hour emergency number. Pertinent information will be obtained and field operations personnel will be contacted. Once on site, trained personnel will immediately evaluate the situation and take appropriate action to minimize any hazards.

If you are a first responder:

Ignition Source Control:

Be particularly careful when first responding to the scene, your vehicles or equipment could ignite a release.

Pipeline Valves:

Cogent Midstream LLC asks that you not operate our pipeline valves as this could make the situation worse. Depending on the system, Cogent Midstream LLC may or may not have the capability to operate valves remotely.

Fire Suppression:

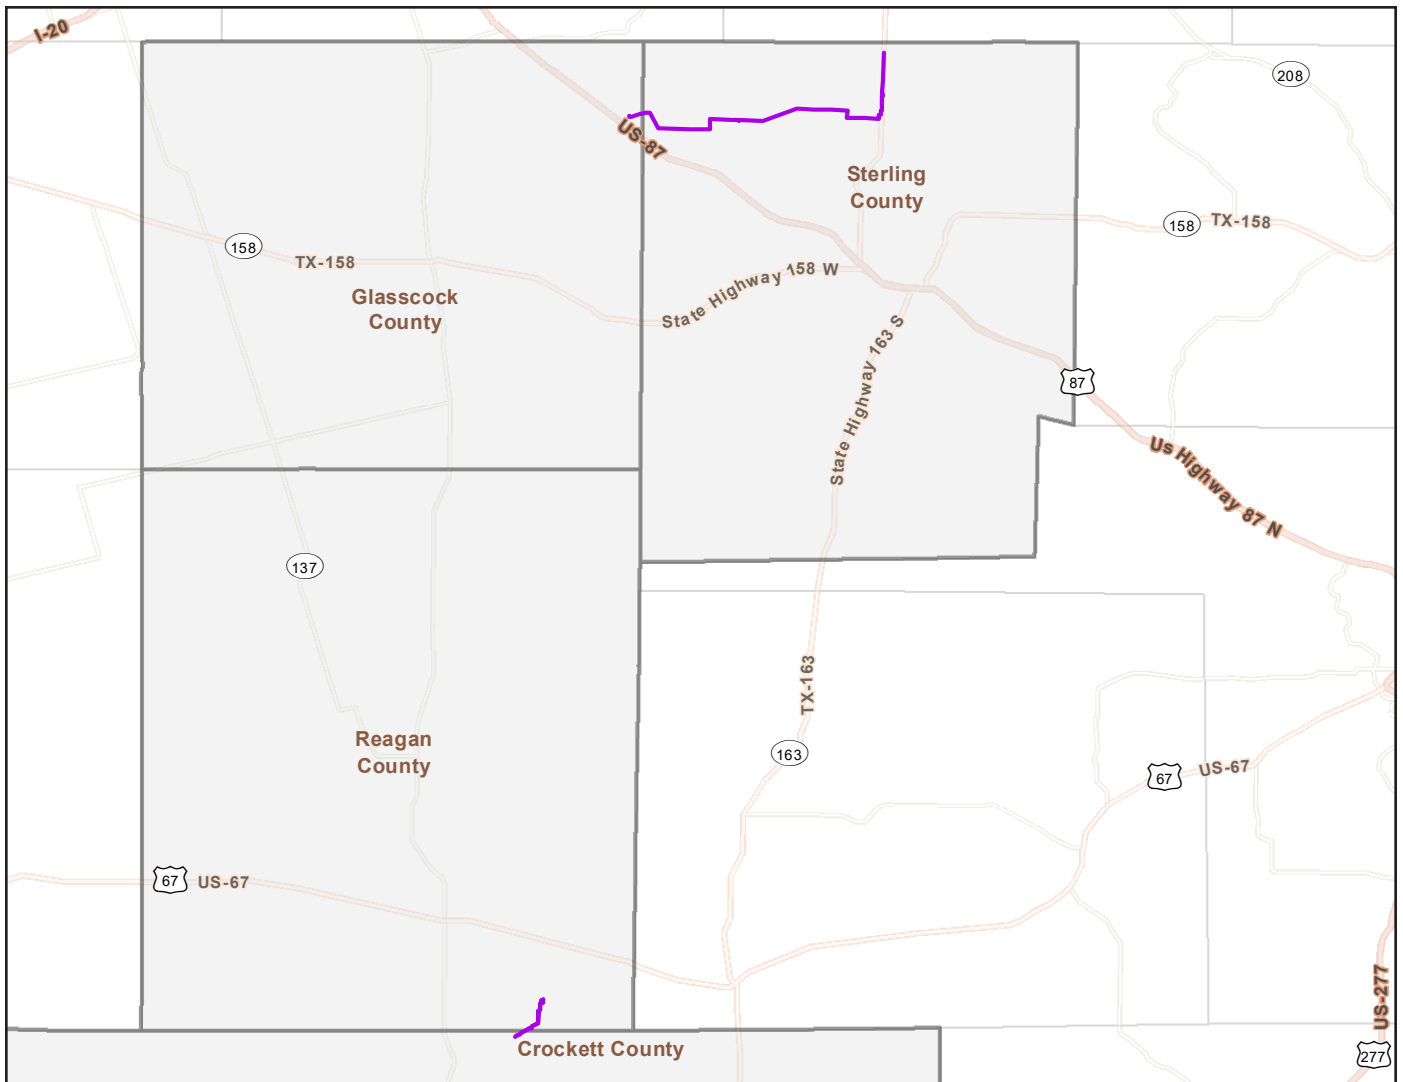

Cogent Midstream personnel are not trained or equipped to fight any fire which constitutes a pipeline emergency condition.

Aide:

Cogent Midstream personnel will aide emergency responders as needed.

For more information concerning the Cogent Midstream LLC please contact Jason Bohn at 1-325-899-4512 or at jbohn@cogentmidstream.com.
