

Corporate Office:
 DCP Midstream, LP
 370 17th Street, Ste. 2500
 Denver, CO 80202
 Phone: 303-595-3331
 Website: www.dcpmidstream.com

The link between natural gas exploration and production and the enduse customer is known as the midstream segment of the natural gas industry. DCP Operating Company, LP leads the midstream segment as one of the nation's largest natural gas gatherers, the largest natural gas liquids (NGLs) producer and one of the largest NGL marketers.

DCP Operating Company, LP owns approximately 2,400 miles of pipeline in Texas.

COMMITMENT TO SAFETY, HEALTH AND ENVIRONMENT

At DCP Operating Company, LP, we design, install, test, operate and maintain our pipelines to meet or exceed regulatory standards. We test our pipelines to withstand a higher pressure than encountered in daily use. Our employees receive regular, thorough training to safely operate and maintain our pipeline systems and respond to the unexpected incident. As part of our ongoing damage prevention program, we patrol our pipeline right-of-way corridors to spot potential safety problems, such as possible leaks or unauthorized construction. DCP Operating Company, LP performs preventive maintenance activities to ensure the safety and integrity of our lines is maintained.

DCP Operating Company, LP is committed to the safe operation of our pipelines. We conduct periodic preparedness training and outreach to local officials and emergency responders.

Copies of the DCP Operating Company, LP Emergency Response Plan(s) are available upon request by contacting the appropriate office listed on the following pages.

EMERGENCY CONTACT:

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

ONLINE TRAINING AVAILABLE

The American Petroleum Institute (API) and the Association of Oil Pipelines (AOPL) have developed a **FREE** online training portal designed to provide training on emergency response techniques for hazardous liquids or natural gas pipeline incidents. Please visit www.nasfm-training.org/pipeline to register.

PRODUCTS TRANSPORTED

Product: Natural Gas

Leak Type: Gas

Vapors:

Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

Product Hazards:

Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.

Product: Natural Gas Liquids

Leak Type: Gas

Vapors:

Initially heavier than air, spread along ground and may travel to source of ignition and flash back. Product is colorless, tasteless and odorless..

Product Hazards:

Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite. Fire may produce irritating and/or toxic gases.
