ABOUT HAWKWOOD ENERGY MIDSTREAM, LLC

Hawkwood Energy is a Denver-based independent upstream oil and gas company primarily focused on developing unconventional liquid opportunities in East Texas.

WHAT DOES HAWKWOOD ENERGY DO IF A LEAK OCCURS?

To prepare for the event of a leak, Hawkwood Energy regularly communicates, plans and trains with local emergency responders. Upon the notification of an incident or leak, Hawkwood Energy will immediately dispatch trained personnel to assist emergency responders. Hawkwood Energy and emergency responders are trained to protect life, property and facilities in the case of an emergency. Hawkwood Energy will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Hawkwood Energy invests significant time and capital maintaining the quality and integrity of their pipeline systems. Hawkwood Energy also utilizes leak surveys and on-ground observers to identify potential dangers. Pipeline personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes utilized to isolate a leak.
