

### ABOUT PINNACLE GAS TREATING, LLC

Pinnacle Gas Treating, LLC owns and operates natural gas gathering and transmission pipelines in East Texas. Permanent markers have been installed along the pipeline system for identification. If you plan to do any type of digging in the vicinity of one of our pipelines located by these markers, please contact 811. Pinnacle Gas Treating, LLC will promptly arrange an on-site meeting with the excavator and will provide temporary marking of the location of the pipeline facilities. If necessary, Pinnacle Gas Treating, LLC will witness the excavation activity.

### WHAT DOES PINNACLE GAS TREATING, LLC DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

## MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Pinnacle Gas Treating, LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. Pinnacle Gas Treating, LLC utilizes on-ground observers to identify potential dangers. Automatic shut-off valves are sometimes utilized to isolate a leak.

Specific information about Pinnacle Gas Treating, LLC program may be found on our Web site, or by contacting us directly.
