Natural Gas	1971	115

**TEXAS**  
**COUNTIES OF OPERATION:**

Denton  
Parker  
Tarrant

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

**PIPELINE SAFETY**

System failures occur infrequently along the nation's network of interstate pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us. If you observe any unusual or suspicious activity near our pipeline facilities or in the unlikely event an emergency occurs, please call us at 888-225-8141.

**ALWAYS CALL 811 BEFORE YOU DIG!**

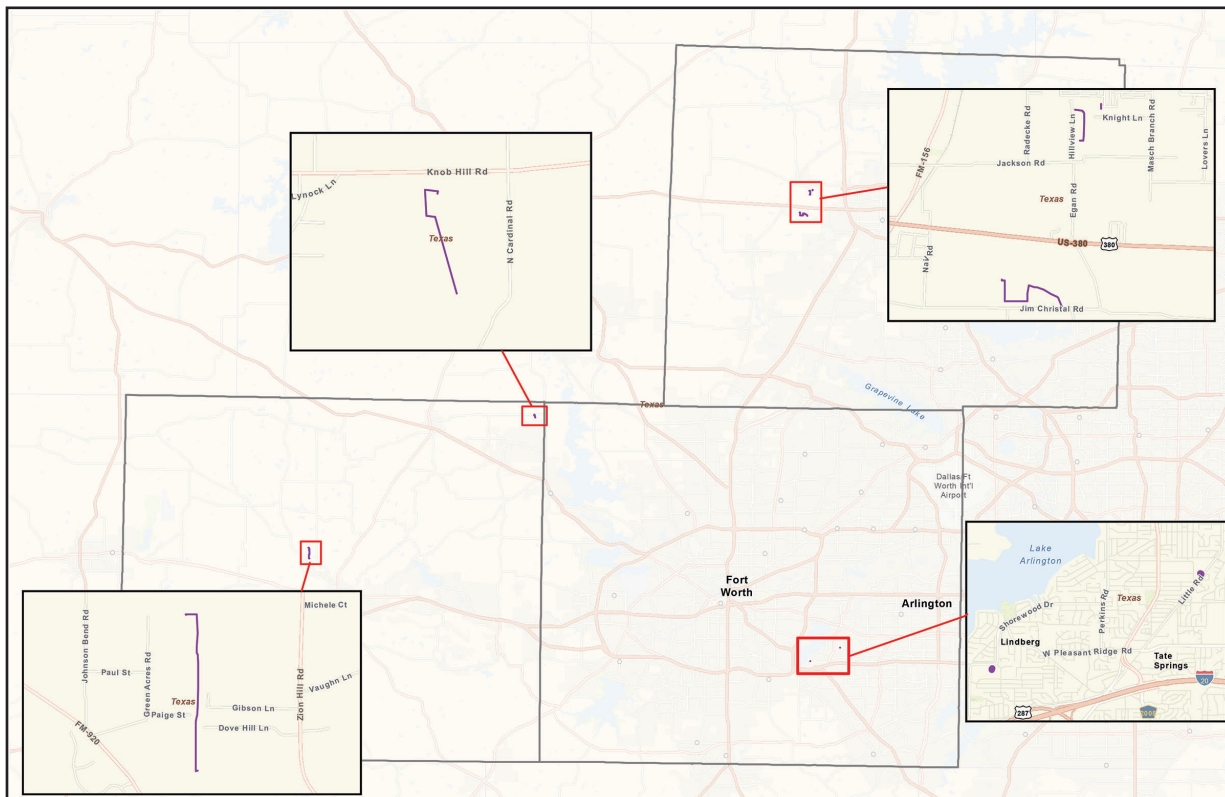

**PIPELINE LOCATION AND MARKERS**

Pipeline markers are used to indicate the approximate location of a pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at [www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov).
