

TG Natural Resources LLC has assets in Texas. We have pipelines with gas, crude oil, highly volatile liquids (HVL). All of our pipelines in East Texas are full well stream pipelines.

Pipeline safety is extremely important to TG Natural Resources LLC. We comply with all pipeline safety rules and regulations. We utilize industry best practices to ensure our pipelines are safe. We strive to constantly improve the safety of our pipelines. To do this, it is important to reach out to 3rd parties that work around our pipelines, such as excavators and emergency responders. We need to work together to ensure notifications of excavations (811) are ALWAYS completed and emergencies are responded to in the safest manner possible. We are committed to continual education with our partners to reduce pipeline incidents and to improve pipeline safety.

TG Natural Resources LLC has been built by hard work, prudent risk-taking and high standards of conduct and ethics. It is the responsibility of every TGNR director, officer and employee to maintain our commitment to basic principles so that we can continue to provide value to our stockholders and maintain our reputation. We want to continue to be the kind of company that can attract and retain the best people in our industry. Our Code of Business Conduct and Ethics reflects management's belief in the fundamental principles of honesty, loyalty, fairness and forthrightness that have made TG Natural Resources LLC a leader.
