

## ABOUT PILLAR ENERGY LLC (PILLAR ENERGY)

Pillar Energy, headquartered in Charleston, WV, is a natural gas production company that started in 2009 with only 10 wells. Since that time, Pillar Energy has grown through strategic acquisitions and now operates approximately 2,400 wells and associated pipelines throughout West Virginia.

## MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Pillar Energy invests significant amounts of time and capital maintaining the safety and integrity of its natural gas pipeline systems. Pillar Energy utilizes ground surveillance patrolling to identify potential dangers. Our pipelines are regularly patrolled and inspected for abnormal operating conditions such as leaks, corrosion, slips and encroachments. If any abnormal operating condition is found, field personnel are immediately dispatched to the area to assess the situation and take corrective action.

## PRODUCTS TRANSPORTED

**Product:** Natural Gas

**Leak Type:** Gas

**Vapors:** Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

**Health Hazards:** Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.

## PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Markers should never be removed or relocated by anyone other than a pipeline operator.

## EMERGENCY CONTACT:

1-681-265-9026

## PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:

Natural Gas	1971	115
-------------	------	-----

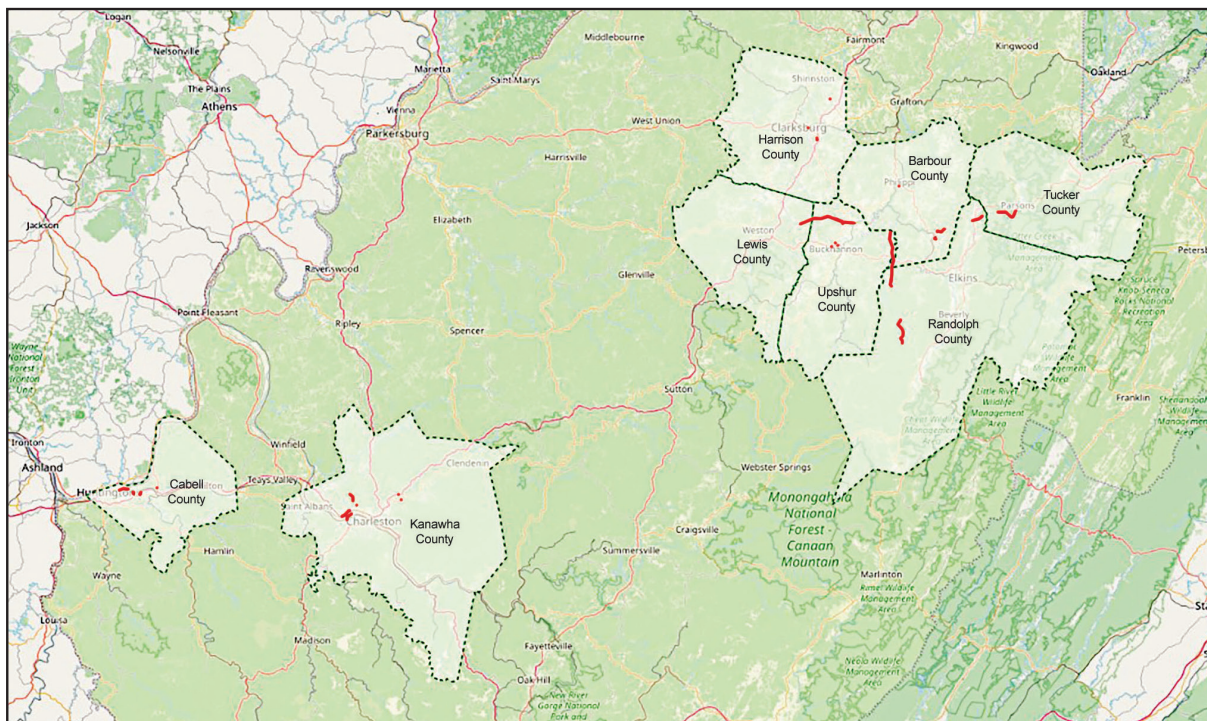

## WEST VIRGINIA COUNTIES OF OPERATION:

Barbour	Lewis
Cabell	Randolph
Harrison	Tucker
Kanawha	Upshur

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*
