a Kinder Morgan operated company

Wyoming Interstate
Gas Company, L.L.C.
a Kinder Morgan company

With approximately 80,000 miles of pipelines, Kinder Morgan is the largest natural gas transporter and largest storage operator in North America. Our pipelines reach deep into the traditional Gulf Coast supply areas, the prolific Rockies supply basins, and many important natural gas shale plays including Eagle Ford, Haynesville, Fayetteville, Barnett, Utica and Marcellus that will play a significant role in meeting the nation's long-term natural gas supply. We serve the major consuming markets of the entire United States.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

In Wyoming our pipelines transport natural gas. We monitor our operations 24-hours a day, every day. We ensure public safety and safe pipeline operations through employee training, regular testing, right-of-way aerial and foot patrols and adherence to our comprehensive Integrity Management plan and procedures.

In addition to our 24-hour monitoring and ongoing safety and security procedures, Kinder Morgan relies on information from neighbors, contractors and government and safety officials to help local field personnel protect the pipeline and identify possible damage or suspicious activity.
