## ABOUT HILCORP ENERGY COMPANY

Hilcorp Energy Company is one of the largest privately held oil and natural gas producers in America.

It is Hilcorp's commitment to never compromise or relax our values in the pursuit of profit or gain. We stress doing the right thing; we treat people fairly; and we play by the rules – all the rules, with honesty and integrity.

## WHAT DOES HILCORP ENERGY COMPANY DO IF A LEAK OCCURS?

Hilcorp is engaged in constant activity to maintain safe pipeline operations. In the event of a pipeline release the Hilcorp Emergency Response Team will take the following steps:

1. Assess the situation.
2. Respond to protect people, property, and the environment.
3. Call for assistance of trained personnel.
4. Work together.

## MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Hilcorp Energy Company invests significant time and capital maintaining the quality and integrity of their pipeline systems. Hilcorp Energy Company utilizes aerial surveillance and/or on-ground observers to identify potential dangers.

Gas transmission and hazardous liquid pipeline operators have developed supplemental hazard and assessment programs known as Integrity Management Programs (IMPs). Specific information about Hilcorp Energy Company's program may be found by contacting us directly.

## PRODUCTS TRANSPORTED IN YOUR AREA

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
HEALTH HAZARDS		Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
