

**PICKENS COUNTY NATURAL GAS**  
ENERGY THAT CREATES A BETTER PATH

1544 Mobile Rd. SW  
Aliceville, AL 35442  
Phone: 205-373-2889  
Website: [pickenscountygaz.com](http://pickenscountygaz.com)

**COMPANY OVERVIEW**

In 1952 the City of Aliceville and the Town of Carrollton established the Pickens County Natural Gas District as a public natural gas distribution company. Since then, Pickens County Natural Gas has grown to include surrounding communities and towns. Not only has Pickens County Natural Gas extended its commercial and residential services, but also plays an active role in community support and development.

**PIPELINE SAFETY**

System failures occur infrequently along the nation’s network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch found authorized digging, but we request your help to notify us.

**ALWAYS CALL 811 BEFORE YOU DIG!**

**WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?**

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

**WHAT TO DO IF YOU HAVE A PIPELINE LEAK?**

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/ electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

**PIPELINE LOCATION AND MARKERS**

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies’ pipelines are in your area by going to the National Pipeline Mapping System website at [www.npms.phmsa.dot.gov](http://www.npms.phmsa.dot.gov).

**EMERGENCY CONTACT:**  
205-373-2889 (Business Hours)

**ALABAMA COUNTIES OF OPERATION:**

Pickens

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

**EMERGENCY RESPONSE PLANS**

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding our pipelines emergency response plans and procedures, contact us at [www.pickenscountygaz.com](http://www.pickenscountygaz.com).
