

ABOUT PARAMOUNT PIPELINE LLC

Paramount Pipeline LLC is headquartered in Paramount, CA. Pipeline operations are located in Los Angeles County and are managed from pipeline control centers in Paramount.

Paramount Pipeline LLC operates about 48 miles of pipelines, both owned and operated by Paramount Pipeline LLC and leased lines operated by Paramount Pipeline LLC.

WHAT DOES PARAMOUNT PIPELINE LLC DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak

the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Paramount Pipeline LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most active pipelines are monitored 24 hours a day via manned control centers. Paramount Pipeline

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

LLC also utilizes on-ground observers to identify potential dangers. Control Center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes used to isolate the leak.

PRODUCTS TRANSPORTED

Product: Distillate

Leak Type: Liquid

Vapors: Initially heavier than air and spread along ground and collect in low or confined areas. Vapors may travel to source of ignition and flash back. Explosion hazards indoors, outdoors or in sewers.

Health Hazards: Inhalation or contact with material may irritate or burn skin and eyes. Fire may produce irritating, corrosive and/or toxic gases. Vapors may cause dizziness or suffocation. Runoff from fire control or dilution water may cause pollution.
