CHS Inc. is the nations largest farmer-owned cooperative, accesses crude oil for our two refineries and moves refined fuel products to the market place via more than 2,000 miles of pipeline in ND, MT, NE, KS, OK and TX.

CHS McPherson Refinery Inc. Pipeline

CHS operates 5 five distinct lines that transport various refined products to and from the refinery and underground storage caverns in Conway, KS. These five lines carry gasoline, NGL's, butane, propane and pentane.

In addition to the refinery and products pipeline, CHS's facilities include a regional office at McPherson and a crude oil trucking fleet of approximately 80 transports which operate in western Kansas. CHS also owns 100% of Jayhawk Pipeline, L.L.C., 100% of Kaw Pipe Line Company and 50% of Osage Pipe Line L.L.C.

Jayhawk Pipeline, L.L.C.

Formed in 1957, Jayhawk Pipeline is 100% owned by CHS Inc. based out of McPherson, Kansas. Jayhawk currently transports approximately 140,000 barrels per day of crude oil in both intrastate and interstate commerce, and is connected to all the major crude

oil pipelines in Kansas. Jayhawk has over 70 employees. Jayhawk Pipeline, LLC operates over 1,000 miles of regulated pipeline throughout Kansas, Nebraska, Oklahoma and Texas and is the operator of Kaw Pipe Line Company and the Hooker-Clawson Pipeline.

Kaw Pipe Line Company

Kaw Pipe Line Company is 100% owned by the CHS McPherson Refinery Inc. and is operated by Jayhawk Pipeline, L.L.C.. Kaw includes approximately 270 miles of active pipeline located in 5 Kansas counties. Kaw receives crude oil from various truck unloading stations throughout central and North Central Kansas. Crude oil received is transported to delivery points near Chase and Lyons, Kansas.

COMMITMENT TO SAFETY, HEALTH & ENVIRONMENT

CHS Inc. is committed to participation in public education and environmentally furthering the general awareness of the public to the issues surrounding our pipeline operation.

This has included the development, implementation, and management of a Public Awareness Program (PAP). Through these efforts, the operator will enhance public safety, further protect the environment, and reduce the risk of third-party damage to the pipeline system.

The company and its management will provide the needed support, resources, and funding required to accomplish these goals. CHS's highest priority is the transportation of petroleum products throughout its system and in a reliable, safe and friendly manner.

CHS is dedicated to these goals and follows all applicable pipeline rules and regulations. Ensuring the mechanical integrity of its pipeline system is an important ingredient toward accomplishing our goals. To this end, CHS has created and implemented a comprehensive pipeline Integrity Management Plan (IMP). For additional information, contact us via email, phone or visit our web site as listed above.
