Atmos Pipeline and Storage LLC provides gas storage services to customers through its ownership and operation of non-regulated underground natural gas storage facilities and associated transmission pipeline facilities. Atmos Pipeline and Storage, LLC owns and operates two underground natural gas storage fields and related pipeline facilities located in Hopkins County, Kentucky. Barnsley Storage Field is located south of Earlington, Kentucky near the communities of Barnsley and Mortons Gap. East Diamond Storage Field is located southeast of Madisonville, Kentucky near the communities of Grapevine and Anton. These storage facilities interconnect with various intrastate and interstate transmission pipeline systems enabling Atmos Pipeline and Storage to meet the needs of certain customers and Marketers throughout the region.

Atmos Energy is committed to safety and working with all First Responders with any pipeline emergency, and our Company's Emergency Plan is available upon request.

COMMITMENT TO SAFETY, HEALTH AND ENVIRONMENT

Safety is a primary concern of Atmos Energy. No reason can justify endangering customers, the public or fellow employees. Safety is the responsibility of every employee regardless of his or her position.

Atmos Pipeline and Storage is committed to:

- Providing a safe, healthy and stable work environment for all employees
- Delivering safe, efficient and affordable service to its customers
- Enhancing public safety through safe work practices and public education
- Complying with federal, state and local regulations as they pertain to Atmos Energy's daily operations
