 25 W. Cedar Street, Suite 215
 Pensacola, FL 32502

WHO IS AVOCET LNG, LLC?

Avocet LNG, LLC is a natural gas project development company that owns and operates natural gas pipelines and gas processing facilities located in the U.S. Gulf of Mexico and in Cameron Parish, Louisiana. The company operates a total of approximately 63 miles of natural gas gathering and transmission pipelines ranging in size from 20 inches to 30 inches in diameter. The pipelines originate offshore on the U.S. Outer Continental Shelf in the West Cameron area (West Cameron Block 167 and West Cameron Block 239). A 30 inch diameter natural gas pipeline comes ashore and terminates at the company's natural gas processing facility located in Cameron Parish, Louisiana near Grand Chenier at 192 Mermentau River Rd. The company's onshore facility is located on the Mermentau River.

If you observe any unusual or suspicious activity near our pipeline facilities or in the unlikely event an emergency occurs, please call us at any time at 1-713 345-1063.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area

- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us.

ALWAYS CALL 811 BEFORE YOU DIG!

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/situations that could occur at one of our facilities. For more information regarding Avocet LNG, LLC's emergency response plans and procedures, contact us at w.daughdrill@delfinlng.com.
