Energy Transfer Partners, a Texas-based energy company founded in 1995 as a small intrastate natural gas pipeline company, is now one of the largest and most diversified master limited partnerships in the United States.

Strategically positioned in all of the major U.S. production basins, the company owns and operates a geographically diverse portfolio of energy assets, including midstream, intrastate and interstate transportation and storage assets. Energy Transfer operates nearly 120,000 miles of natural gas, crude oil, natural gas liquids and refined products pipelines and related facilities, including terminalling, storage, fractionation, blending and various acquisition and marketing assets in 41 states.

**Tiger Pipeline** is an approximately 200-mile interstate natural gas pipeline system in the Haynesville Shale, Bossier Shale and Fort Worth Basin production areas. The 42-inch pipeline originates in Carthage, Texas, and ends near Delhi, Louisiana, with interconnects to seven interstate pipelines.
