**COMMITMENT**

Westlake Petrochemicals is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Westlake Petrochemicals has qualified personnel trained in emergency response activities and regularly participates in drills and exercises reflecting various types of response levels, emergency scenarios and environmental sensitivities.

Westlake Petrochemicals has committed the necessary resources to fully prepare and implement its emergency response plans and has obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a "worst case" discharge or substantial threat of such a discharge.

**COMMUNICATIONS**

Westlake Petrochemicals utilizes its 24-hour Pipeline Control Center (337-583-3182) as a hub of communications in emergency response situations. The Control Center has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones, portable radios and/or land-line telephone systems from Company facilities and offices.

**INCIDENT COMMAND SYSTEM**

Westlake Petrochemicals utilizes an expandable Incident Command System.

Depending upon the size and complexity of an incident, additional company or contract personnel may be added as needed. Additional federal, state or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure.

**SPILL RESPONSE EQUIPMENT**

Westlake Petrochemicals maintains contracts with companies in Calcasieu parish in Louisiana who have emergency response trailers and equipment ready at strategically located facilities. Trailers contain spill boom (of various types, sizes and lengths as needed in different areas), sorbent materials, boats, motors, hand tools, power tools, pumps, hoses, personal protective equipment, first aid and miscellaneous supplies.

**SPILL RESPONSE CONTRACTORS**

Westlake Petrochemicals maintains contracts with environmental spill response service providers. These providers can be relied upon to respond appropriately with spill response equipment and trained personnel.
