**ABOUT CITY OF VIRGINIA PUBLIC UTILITIES**

City of Virginia Department of Public Utilities (VDPU) is based in Virginia, Minnesota and operates the city's natural gas distribution system. The system includes 53 miles of natural gas distribution pipeline servicing approximately 2300 customers. The distribution pipeline is serviced from the Town Border Station located on County Highway 7 in Mountain Iron, Minnesota and operates at a maximum pressure of 50 psi.

Call 811 before you dig

**WHAT DOES VDPU DO IF A LEAK OCCURS?**

While emergency response personnel are doing their part, our employees will do what needs to be done to protect lives, property and the environment.

- Our employees will protect people from injury by evacuating all persons from the danger zone.
- If a fire does not already exist, they will remove any source of ignition.
- They will eliminate the natural gas source.
- For more pipeline safety information visit: <http://holnaturalgas.com/safety-information.html>

 COUNTIES OF OPERATION:**

St. Louis

*Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.*

**PRODUCTS TRANSPORTED**

PRODUCT	LEAK TYPE	VAPORS
NATURAL GAS	Gas	Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.
<b>HEALTH HAZARDS</b>	Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
