**OVERVIEW**

Gulf South Pipeline Company, LLC is a network of interstate natural gas pipelines that provides transportation and storage services. Gulf South transports natural gas directly from the Barnett, Eagle Ford, Haynesville, SCOOP/STACK, and Woodford shale plays, and indirectly from other basins via third-party pipelines and the Perryville Exchange. Deliveries are transported to both on-system and off-system markets in the Gulf Coast area, as well as to off-system markets in the South Central, Midwestern, and Southeastern United States.

**COMMITMENT TO SAFETY, HEALTH & THE ENVIRONMENT**

Gulf South is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Gulf South's qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities. Gulf South has committed the necessary resources to fully prepare and implement its emergency response plans.

**COMMUNICATIONS**

Gulf South utilizes its 24-hour Pipeline Control Center (1-800-850-0051) as a hub of communications in emergency response situations.

The Control Center has a vast catalog of resources and capabilities. On-

site communications are conducted using cellular telephones, portable radios, satellite phones and/or land-line telephone systems from company facilities and offices.
