

ABOUT MONROE GAS STORAGE COMPANY, LLC

Monroe Gas Storage Company is an operating depleted reservoir natural gas storage facility in Monroe County, MS, near the town of Amory. Monroe currently has approximately 12 million Dth of certificated capacity and connects to TGP's 500 Leg and TETCO Zone M-1 30.

Monroe is a FERC 7(c) certificate facility and offers a range of services including firm storage, interruptible storage, wheeling, and PALs.

WHAT DOES MONROE GAS STORAGE COMPANY, LLC DO IF A LEAK OCCURS?

To prepare for the event of a leak, pipeline companies regularly communicate, plan and train with local emergency responders. Upon the notification of an incident or leak the pipeline company will immediately dispatch trained personnel to assist emergency responders.

Pipeline operators and emergency responders are trained to protect life,

property and facilities in the case of an emergency.

Pipeline operators will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Monroe Gas Storage Company, LLC invests significant time and capital maintaining the quality and integrity of their pipeline systems. Most active pipelines are monitored 24 hours a day via manned control centers. Monroe Gas Storage Company, LLC also utilizes aerial surveillance and/or on-ground observers to identify potential dangers. Control center personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes utilized to isolate a leak.

Gas transmission and hazardous liquid pipeline operators have developed supplemental hazard and assessment
