

**COMMITMENT**

Targa Downstream LLC (“Targa”) is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Targa’s qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities. Targa has committed the necessary resources to fully prepare and implement its emergency response plans and has obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a “worst case” discharge or substantial threat of such a discharge.

**COMMUNICATIONS**

Targa operates a 24-hour Pipeline Control Center in Sulphur, LA. This facility is used as a hub of communications in emergency response situations. The Control Center has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones, Motorola radios in Company vehicles,

portable Motorola Radios and/or land-line telephone systems from Company facilities and offices.

**INCIDENT COMMAND SYSTEM / SPILL RESPONSE EQUIPMENT**

Targa utilizes an expandable Incident Command System. Depending upon the size and complexity of an incident, additional Company or contract personnel may be added as needed. Additional federal, state or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure. Targa is also a member of Petal Dome Mutual Aid (PDMA) which utilizes the resources of member companies to respond to emergency situations. Certified Oil Spill Response Organizations (OSROs) under contract by Targa are Garner Environmental Services, Inc. and Oil Mop LLC. These OSROs can be relied upon for an appropriate level of response with spill response equipment and trained personnel.

For more information regarding Targa’s emergency response plans and procedures, call Sue Guidry, Compliance Specialist, at (337) 583-5210.
