ConocoPhillips Company (COP) operates oil and gas production assets, pipelines, and processing plants in the United States. COP transports petroleum products including natural gas and natural gas liquids (NGLs).

ConocoPhillips is committed to protecting the health and safety of everybody who plays a part in our operations, lives in the communities in which we operate or uses our products. Wherever we operate, we will conduct our business with respect and care for both the local and global environment and systematically manage risks to drive sustainable business growth. We are committed to eliminating injuries, occupational illnesses, unsafe practices and incidents of environmental harm from our activities.

OUR COMMITMENT TO SAFETY, HEALTH, & ENVIRONMENT

ConocoPhillips Company (COP) is committed to the protection of the public and

the environment through the safe operation and maintenance of its pipeline systems. Qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities.

EMERGENCY RESPONSE CAPABILITIES

COP has committed the necessary resources to prepare and implement its emergency response plans and has obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a "worst case" discharge or substantial threat of such a discharge.

COMMUNICATIONS

COP utilizes a 24-hour Control Center (1-855-278-1928). The Control Center has communications with on-site personnel

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

through cellular phones or land-line telephone systems from Company facilities and offices.

INCIDENT COMMAND SYSTEM

COP utilizes an expandable Incident Command System. Depending upon the size and complexity of an incident, additional Company or contract personnel may be added and federal, state or local agencies may be integrated by utilizing the Unified Command Structure.

OIL SPILL CONTRACTORS

Certified Oil Spill Response Organizations (OSROs) are under contract by COP for use in this area. Spill Response contractors are used globally, while OSROs that are close to assets in this area are also identified and under contract for use in an incident. The Company Emergency Response Plan contains the specific contact and resource information for these companies. In addition, these OSROs are invited to participate in training and pre-planning exercises with our local and regional response teams. These OSROs and Co-ops can be relied upon for an appropriate level of response with spill response equipment and trained personnel.
