ABOUT STAKEHOLDER MIDSTREAM

Based in San Antonio and founded in 2015, Stakeholder Midstream is an independent midstream oil and gas company serving producers operating in unconventional shale plays across North America. Current capabilities include in-field natural gas gathering, compression, treating and processing services; innovative NGL solutions; and crude oil gathering, transportation and storage.

Stakeholder Midstream operates under two different companies Texas & New Mexico:

1. Stakeholder Midstream Crude Oil PL, LLC: operates San Andres Crude gathering system in Yoakum and Gaines, TX & Lea County, NM.

2. Stakeholder Gas Utility, LLC – operates Campo Viejo sour Gas Gathering System (in Yoakum, Gaines, Cochran, Hockley & Terry County Texas and Lea County NM), 6” NGL pipeline (Yoakum/Gaines, TX) and 8” residue gas pipeline (Yoakum County, TX).

WHAT DOES STAKEHOLDER MIDSTREAM DO IF A LEAK OCCURS?

To prepare for the event of a leak, Stakeholder Midstream regularly communicates, plans and trains with local emergency responders. Upon the notification of an incident or leak, Stakeholder Midstream will immediately dispatch trained personnel to assist emergency responders. Stakeholder Midstream and emergency responders are trained to protect life, property and facilities in the case of an emergency. Stakeholder Midstream will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Stakeholder Midstream invests significant time and capital maintaining the quality and integrity of their pipeline

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

systems. Stakeholder Midstream also utilizes leak surveys and on-ground observers to identify potential dangers. Pipeline personnel continually monitor the pipeline system and assess changes in pressure and flow. They notify field personnel if there is a possibility of a leak. Automatic shut-off valves are sometimes utilized to isolate a leak.
