Zenith Energy Terminals Holdings LLC owns, operates, develops and acquires a diversified portfolio of complementary energy logistics assets. Zenith Energy Terminals assets include 21 crude oil and petroleum product terminals located in Alabama, Colorado, Illinois, Maryland, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Virginia, and Wisconsin, which have a combined storage capacity of approximately 7.8 million barrels.

Unlike many competing terminal companies, Zenith Energy Terminals is a third party terminalling company that does not market, store or own petroleum product and, as such, does not compete with its customers. Zenith Energy Terminals provides terminalling, storage, throughput and transloading services for a variety of petroleum products to customers under multi-year contracts. Zenith Energy Terminals assets have the ability to distribute products throughout the United States via pipeline, marine, railroad and truck.

Lucas

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

Zenith Energy Terminals Strengths

- Zenith Energy Terminals is an independent operator that does not market, store or own its own product and, as such, terminal customers are not competing with the terminal operator
- Zenith Energy Terminals focuses on operations and its customers, devoting significant capital and resources to efficiency and maintenance programs
- Zenith Energy Terminals is responsible for environmental, health and safety, compliance and all regulatory documentation
- All Terminals are operated by employees that are highly trained and properly certified
- Customers will have opportunities to acquire space throughout Zenith Energy Terminals portfolio as operations expand
- Zenith Energy Terminals prioritizes new acquisition/joint venture opportunities brought to its customers
- Zenith Energy Terminals has access to significant capital to grow its business
