WHO IS SPIRE STORAGE SALT PLAINS

Spire Storage Salt Plains is located about 110 miles north of Oklahoma City near Manchester, Oklahoma in Grant County. The facility provides natural gas services to a variety of customers such as local distribution companies, electricity generators, natural gas marketers and natural gas producers. The facility typically operates 8 hours a day, 7 days a week with on call assistance by the operations staff after hours if the Salt Plains 24-hour emergency phone number has been called. The Spire Storage Salt Plains operation is regulated by the Oklahoma Corporation Commission and the Department of Transportation. Spire Storage Salt Plains is owned by Spire.

If you observe any unusual or suspicious activity near our pipeline facilities or in the unlikely event an emergency occurs, please call us at any time using one of the numbers listed in this document.

More information on Spire Storage Salt Plains can be found at: spireenergy.com/spire-storage/spire-storage-salt-plains.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)

- Do not start/turn off motor vehicles/ electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation’s network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We monitor for unauthorized digging, but we request your help to notify us should you see any excavation activity in your area that you believe is close to the Salt Plains pipeline or operation.

ALWAYS CALL 811 BEFORE YOU DIG!

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

OKLAHOMA COUNTIES OF OPERATION:

Grant

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

You can also find out where other companies’ pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/ situations that could occur at one of our facilities. For more information regarding Spire Storage Salt Plains emergency response plans and procedures, contact us at the address provided at the top of this document.
