

Tennessee Gas Pipeline Company, L.L.C.
a Kinder Morgan company

Kinder Morgan's Tennessee Gas Pipeline (TGP) is approximately 11,760-mile pipeline system that transports natural gas supplied from Northeast section of the United States, to diverse end-use demand markets including New York City and Boston in the Northeast, the Louisiana and Texas Gulf Coast, and Mexico.

BASIC INFORMATION FOR LANDOWNERS ALONG THE TENNESSEE GAS PIPELINE COMPANY'S RIGHTS OF WAY

The Tennessee Gas Pipeline Company's pipelines are always constructed along rights of way, which are long, narrow stretches of land designating a safe and clear corridor for the pipeline. A Right of Way Agreement or Pipeline Easement is a legal document through which the property owner grants the pipeline company permission to use a portion of his or her land to install, operate, and maintain its pipeline facilities. It also provides the company with access rights to and over the rights of way, so employees may inspect and maintain the pipeline after it is built. The Tennessee Gas Pipeline Company regularly maintains the rights of way along its pipeline systems to ensure the pipeline remains safe and to protect the area's ecological balance.

To ensure pipeline integrity:

- Do not erect buildings or any other structures on the pipeline right of way.
- Do not plant trees or place any other obstructions on the right of way.
- Do not excavate, change the grade, or impound water within the right of way without approval.
- Do not move heavy equipment across the right of way without approval.

Although building on the right of way is prohibited, under certain conditions, the pipeline may be crossed by roads, railroads, streets, cables, and

utility lines. In these instances, the Tennessee Gas Pipeline Company will work with the owner and developer to accommodate construction. The owner or developer will be required to pay any costs necessary to ensure that the pipeline continues to meet all regulations under the new conditions. If you are a landowner and would like more information, please contact the Tennessee Gas Pipeline Company office nearest you.

TENNESSEE GAS PIPELINE COMPANY'S CRISIS RESPONSE PROGRAM: WORKING WITH YOU

The Tennessee Gas Pipeline Company is committed to running a safe, reliable pipeline system. As part of that commitment, we work closely with emergency response personnel to develop well-defined and extensively tested response plans in the event of a fire, rupture, major leak, or other serious incident occurring at or near one of our facilities. The response plans are designed to prepare our employees and local emergency response personnel to handle emergency situations involving our facilities and protect the public. In the event of a suspected natural gas emergency:

- **Isolate the area** and restrict entry to trained emergency response personnel and designated Tennessee Gas Pipeline Company employees.
- **Establish isolation zones** based upon measurements from combustible gas indicator instruments. Gas odor or lack of gas odor is not sufficient to establish safe zones.
- **Avoid creating sparks.** Potential ignition sources for natural gas include electrical motors, firearms, static electricity, nonexplosion-proof flashlights or tools, and any open flame or spark. Do not light a match, start an engine, use a telephone, switch lights on or off, or do anything that may create a spark.

**EMERGENCY CONTACT:
1-800-231-2800**

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:

PENNSYLVANIA COUNTIES OF OPERATION:

Allegheny	McKean
Beaver	Mercer
Bradford	Pike
Crawford	Potter
Elk	Susquehanna
Erie	Tioga
Forest	Venango
Lawrence	Wayne

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.

- **Immediately make the operator aware of the situation.** Check the posted right of way or station signs to find out what company operates the pipeline and how to contact the operator.
- **Let the escaping gas burn if it is on fire.** Attempting to extinguish a natural gas fire may result in a secondary explosion. If necessary, provide cooling for nearby exposures that are threatened by the fire.

CAUTION

Tennessee Gas Pipeline Company, L.L.C.
a Kinder Morgan company

CALL
(800) 231-2800

HIGH PRESSURE GAS PIPELINE

DO NOT DIG

INTENTIONAL DAMAGE TO ANY FACILITY USED IN INTERSTATE PIPELINE TRANSPORTATION OF NATURAL GAS IS PUNISHABLE BY A FINE UP TO \$25,000 AND 15 YEARS IN PRISON. INTENTIONAL DAMAGE TO A PIPELINE MARKER SIGN, OR MARKING BUOY IS PUNISHABLE BY A FINE OF UP TO \$5,000 AND 1 YEAR IN PRISON.

- **Let the Tennessee Gas Pipeline Company personnel operate the valves** to cut off the fuel supply. Do not operate the valves yourself.

- **Avoid forced ventilation of structures and excavations.** Forced ventilation can actually increase the possibility of a flammable atmosphere.

The Tennessee Gas Pipeline Company's field locations hold meetings with emergency responders on a regular basis to educate them on our operations. If you are interested in

finding out more about this program or in attending a meeting, contact the Tennessee Gas Pipeline Company office nearest you.
