PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us.

Know what's below.
Call before you dig.

ALWAYS CALL 811 BEFORE YOU DIG!

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Markers should never be removed or relocated by anyone other than a pipeline operator.

You can also find out where other companies' pipelines are in your area by going to the National Pipeline Mapping System website at www.npms.phmsa.dot.gov.

EMERGENCY RESPONSE PLANS

An Emergency Response Plan is developed for each pipeline facility to contain, control and mitigate the various types of emergency conditions/ situations that could occur at one of our facilities. For more information regarding our emergency response plans and procedures, contact us directly.

EMERGENCY CONTACT:
1-615-441-2830

Table with 3 columns: PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#, Natural Gas 1971 115, Propane 1075 115

TENNESSEE COUNTIES OF OPERATION:

Table with 2 columns: Cheatham, Dickson, Houston, Montgomery, Stewart

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.
