ABOUT AMPLIFY ENERGY

Amplify Energy is an independent natural gas and oil company focused on the exploitation, development, and acquisition of natural gas, NGL and oil properties in the United States.

Our properties consist of thick, multi-zone natural gas and oil reservoirs with well-known geologic characteristics and long-lived, predictable production profiles. Our primary business objective is to create shareholder value through growth in reserves, production and cash flows. Amplify Energy is headquartered in Houston, Texas.

PUBLIC SAFETY AND ENVIRONMENT

- Amplify Energy is committed to maintaining a strong safety environment within its company and the communities in which it operates.
- Amplify Energy utilizes modern computer software tracking systems to manage safety and environmental compliance with its pipeline systems.
- To date, Amplify Energy has had no reportable injuries or property damage associated with the operations of its pipeline systems.

WHAT ARE THE SIGNS OF A NATURAL GAS PIPELINE LEAK?

- Blowing or hissing sound
- Dust blowing from a hole in the ground
- Continuous bubbling in wet or flooded areas
- Gaseous or hydrocarbon odor
- Dead or discolored vegetation in a green area
- Flames, if a leak has ignited

WHAT SHOULD I DO IF I SUSPECT A PIPELINE LEAK?

Your personal safety should be your first concern:

- Evacuate the area and prevent anyone from entering
- Abandon any equipment being used near the area
- Avoid any open flames
- Avoid introducing any sources of ignition to the area (such as cell phones, pagers, 2-way radios)
- Do not start/turn off motor vehicles/ electrical equipment
- Call 911 or contact local fire or law enforcement
- Notify the pipeline company
- Do not attempt to extinguish a natural gas fire
- Do not attempt to operate any pipeline valves

PIPELINE SAFETY

System failures occur infrequently along the nation's network of interstate natural gas pipeline facilities, and many of these are caused by damage from others digging near the pipeline. We watch for unauthorized digging, but we request your help to notify us.

ALWAYS CALL 811 BEFORE YOU DIG!

PIPELINE LOCATION AND MARKERS

Pipeline markers are used to indicate the approximate location of a natural gas pipeline and to provide contact information. Aerial patrol planes also use the markers to identify the pipeline route. Markers should never be removed or relocated by anyone other than a pipeline operator.

EMERGENCY CONTACT:

1-855-275-7017

PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:

Natural Gas	1973	115
-------------	------	-----

TEXAS COUNTIES OF OPERATION:

Gregg	Rusk
Harrison	Upshur

Changes may occur. Contact the operator to discuss their pipeline systems and areas of operation.
