WHAT DOES BUFFCO PRODUCTION, INC. DO IF A LEAK OCCURS?

To prepare for the event of a leak, Buffco Production, Inc. regularly communicates, plans and trains with local emergency responders. Upon the notification of an incident or leak Buffco Production, Inc. will immediately dispatch trained personnel to assist emergency responders.

Buffco Production, Inc. and emergency responders are trained to protect life, property and facilities in the case of an emergency.

Buffco Production, Inc. will also take steps to minimize the amount of product that leaks out and to isolate the pipeline emergency.

MAINTAINING SAFETY AND INTEGRITY OF PIPELINES

Buffco Production, Inc. invests significant time and capital maintaining the quality and integrity of their pipeline systems. Buffco Production adheres to standards set by federal oversight agency, Pipeline and Hazardous Materials Safety Administration, and enforced by the Texas Railroad Commission, the state oversight agency. Personnel continually monitor the system for changes in pressure and flow. In addition to visual observation and field verification process, automatic isolation valves are utilized within the system to assist in over/under pressure protection.

PRODUCTS TRANSPORTED

Product: Natural Gas

Leak Type: Gas

Vapors: Lighter than air and will generally rise and dissipate. May gather in a confined space and travel to a source of ignition.

Health Hazards: Will be easily ignited by heat, sparks or flames and will form explosive mixtures with air. Vapors may cause dizziness or asphyxiation without warning and may be toxic if inhaled at high concentrations. Contact with gas or liquefied gas may cause burns, severe injury and/or frostbite.
