

**COMMITMENT**

CITGO Products Pipeline Company (CPPL) is committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. CPPL's qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environment sensitivities.

CPPL has committed the necessary resources to fully prepare and implement its emergency response plans and has obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a "worst case" discharge or substantial threat of such a discharge.

**COMMUNICATIONS**

CPPL utilizes its 24-hour Pipeline Control Center (1-800-467-5658) as a hub of communications in emergency response situations. The Control Center

has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones, portable Motorola Radios and/or landline telephone systems from Company facilities and offices.

**INCIDENT COMMAND SYSTEM**

CPPL utilizes an expandable Incident Command System. Depending upon the size and complexity of an incident, additional Company or contract personnel may be added as needed. Additional federal, state or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure.

**OIL SPILL CONTRACTORS**

Certified Oil Spill Response Organizations (OSROs) under contract by CPPL, are Miller Environmental Services and TAS Environmental Services. These OSROs can be relied upon for an appropriate level of response with spill response equipment and trained personnel.

**EMERGENCY CONTACT:**

**1-800-467-5686**

**PRODUCTS/DOT GUIDEBOOK ID#/GUIDE#:**

Diesel Fuel	1202/1993	128
