

EMERGENCY RESPONSE CAPABILITIES

COMMITMENT

Eastman Chemical Company and Mustang Pipeline Company are committed to the protection of the public and the environment through the safe operation and maintenance of its pipeline systems. Eastman Chemical Company and Mustang Pipeline's qualified personnel are trained in emergency response activities and regularly participate in drills and exercises reflecting various types of response levels, emergency scenarios, topographic terrain and environmental sensitivities.

Eastman Chemical Company and Mustang Pipeline have committed the necessary resources to fully prepare and implement its emergency response plans and have obtained through contract the necessary private personnel and equipment to respond, to the maximum extent practicable, to a "worst case" discharge or substantial threat of such a discharge.

COMMUNICATIONS

Eastman Chemical Company and Mustang Pipeline utilize its 24-hour Pipeline Control Center (1-800-677-6839) as a hub of communications in emergency response situations. The Control Center has a vast catalog of resources and capabilities. On-site communications are conducted using cellular telephones.

INCIDENT COMMAND SYSTEM

Eastman Chemical Company and Mustang Pipeline utilize an expandable Incident Command System. Depending upon the size and complexity of an incident, additional Company or contract personnel may be added as needed. Additional federal, state or local agencies may be integrated into the Incident Command System by utilizing a Unified Command Structure.
